What Our Student Says ?

RECOMMENDATIONS

Arun Madan

★★★★★

Wonderful teachers and excellent management. Very professional way of teaching and post classes support.

Hemant Batra

★★★★★

I would totally recommend Fintram to all ACCA aspirants not only for the excellent course material but also the methodology adopted in the teaching process by the teachers. Goes without saying that ACCA helped me a lot in getting the knowledge and the way as to how to approach the exams. **HIGHLY RECOMMENDED!**

Hey guys

I want to recommend fintram to every ACCA student because the faculty really understand what is the requirement to pass a paper and how to get best out of student. Faculty of SBL, Pankaj sir 🧐 has a very unique teaching style, he is multilingual and had a lot of industry experience. One should try his demo lecture on YouTube and grab an opportunity to study under his guidance. 🙏

★★★★★

Wonderful Faculty with great Industry experience. Learning with real world examples. Success is guaranteed with personal attention to each student. Highly recommended and wishing all the success to entire team of Fintram.

FinTram provides something unique to its students that no other institute as of now is providing, i.e the question marathon. As a student it is very beneficial to practice the questions from past exams before you actually sit for your exam. Also the quality of the lectures is top notch, the content is presented in a way which is easy to understand and taught in a very structured manner. The approachability of the staff is also commendable as they conduct regular webinars to clear specific doubts of students. FinTram provides all of this at a very reasonable price. Would highly recommend joining this institute for ACCA coaching.

Fantastic faculty with years of experience. Real-life examples are used to teach. With one-on-one attention to each student, success is guaranteed. Fintram's complete crew is highly recommended, and we wish them all the best.

I would surely recommend Fintram Global as the support I got starting from getting Registered with ACCA to the conceptual clarity and concept I built through their lectures.....it's awesome 👍

I am happy that I made the right decision to start my ACCA classes with Fintam. The quality of lectures is outstanding and the best part most of the doubts are cleared by the end of the discussion of concept by the faculties.

Big Thanks to Swati Mam who made it easy for us to study at home and be safe. 😊😊👍👍👍👍

@FinTram Global I also saw your video about demo for computer based exam for SBL. At first, I was quite worried about the transition from paper based to computer based exams. But after seeing your video on that topic, any individual will be more confident and positive about the transition. Few people have the art of educating and teaching and you do have that boon and quality of a mentor. Huge respect and standing ovation for your hard work and expertise. U will get the praises and blessing of many ACCA students. Thank you very much..
